DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1020, drawn to A BUILDING PANEL AND BUILDING STRUCTURE, classified in class 52, subclass 86.
 - II. Claims 21-27, drawn to A CRIMPING MACHINE, classified in class 29, subclass 243.580.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as apparatus and product made. The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be made by another and materially different apparatus (MPEP § 806.05(g)). In this case the building panel does not require the particulars of the crimping machine. Specifically, the building panel could be molded, extruded, or hot/cold pressed.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3635

4. A telephone call was made to Mr. Brian D. Lefort on 9/27/02 to request an oral election to the above restriction requirement, but did not result in an election being made. The examiner was told that Mr. Lefort was no longer with the office and that there was no way of knowing which attorney is currently of record. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yvonne M. Horton whose telephone number is (703) 308-1909.
